**Small Homes.**  
Green things growing indoors are the most successful antidotes to winter ever devised. Thousands who cannot have a conservatory change the whole temper of a home by a few plants. There are many varieties of palm today, both hardy and decorative, and of ferns. Of the many blossoming plants which do well indoors, the place of highest honor, considering what it has done for humanity in the mass, must remain with the humble geranium. A single pot in a hall bedroom often helps a young man or woman through a lonely winter. Many of the newer plants do not require direct sunlight in order to thrive. These plants are childish elementary, but obviousness and human importance often lie very near together.—Collier's.

### "Title Talks"

#### The Business of Abstracting

The business of Abstracting titles is of comparatively recent growth. As lands increase in value, the need of title security becomes more and more imperative.

It is just as sensible to safeguard the title to a thousand dollar vacant lot or to any other property, as it is to keep your thousand dollar bond under lock and key.

**PROTECTION IN EITHER CASE IS THE THING SOUGHT.**

Good titles make real estate as negotiable as stocks and bonds.

There is no way of being sure about the title except by the help of an abstract by a reliable company.
